Did you know that
community dollars fund
100% of the equipment
in our hospital?

Equipment and technology purchases often lead
to major improvements in patient care.

SERVING OUR COMMUNITY

10,852

Overnight visits of one night or more

106,912

Diagnostic images taken

1,405

Babies born

21,351

Outpatient Mental Health visits, 604 inpatient stays

242

Rehabilitation Unit visits

52,024

Emergency Room visits

Because of you...

Cambridge Memorial Hospital was able to enhance patient care by:

- › Implementing an electronic triage system in our Emergency Department (ED). eCTAS is a tool that enables triage nurses to make highly accurate, first assessments. Each year our ED sees more than 52,000 patients and we are proud to be the second hospital in the province to introduce this technology.
- › Introducing a new collaborative process between Emergency doctors and the Diagnostic Imaging team to speed up ultrasounds for ED patients, decreasing patient wait times by 90 minutes.
- › Opening of a much-needed Neurology Clinic. Patients with severe headaches and seizures no longer need to go out of the community for specialized neurological care; most can now stay close to home for diagnosis, treatment and follow-up.
- › Supporting our Outpatient Mental Health Program's efforts to lower their wait list of over 500 to just 33 in less than a year.

Our greatest strength is the support we receive from our donors.

Your gifts save lives. Thank you!
